COUNT THE DEAD!

How many PFO ForeverFish™ do you see? Color each of the remains. If you try to eat them you can get clostridium botulinum, formalin, and other yummy nutrients!

HAZARD HELPERS

Connect these common hazardous situations to the correct instructive signage.

DYSTOP-O-MART[®]

GRAB-N-GO DAY SALE

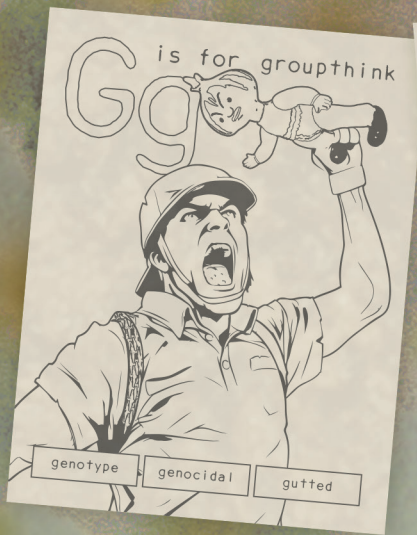

You may enjoy your Dystop-o-mart Coloring Book for the rest of your life!

To color, just gather some colorful pigments found in plastics you can easily find in any body of water near you! Just heat the plastic container in a flame or radioactive isotope and you're ready to express yourself!

- Anthraquinone
- Diazo pigments
- Isoindolinone
- Mono Azo salts
- Benzimidazolone
- Diketo pyrrolo pyrrole (DPP)
- Isoindolinone
- BONA Lake
- Naphthol Lake
- Quinacridone
- Phthalocyanine
- Dioxazine

And, of course, anything charred!
